Acme is a leading provider of Contract Manufacturing and Development services to the pharmaceutical industry for Oral Solid and Sterile dosage form. Acme began its journey in 2005 and in a decade has transformed into a trusted partner and a complete solution provider. The Group has expanded into niche segments of Oral Hormones, both Sex Hormones and Levothyroxine, along with General Injectables - Liquids and Lyophilized, catering through three state-of-the-art manufacturing facilities.

Today it employs more than 2000 highly-skilled workforce at its facilities which are located in Northern India. The facilities are

spread over an area of approx 500,000 sq ft having an annual capacity of 15 Billion Tablets, 3 Billion Capsules and 42 Million Ampoules / Vials.

In our journey over the past decade we have been audited and approved by various international regulatory agencies including UK-MHRA, EU-GMP, ANVISA, PICS, INVIMA, WHO-Geneva. Apart from this the Group has approvals across major countries in Asia, Africa, CIS and Latin Countries. US FDA filing is planned for Q2, 2018 as we continue our journey towards building a sustainable future.

At Acme we offer Quality, Speed and Value by combining our technical competencies and cost effective solutions.

Across our sites our development teams are proficient in

- Analytical Development: Method development and Validation
- Pre-Formulation Studies: Chemical / physical characterization and Drug / Excipient compatibility
- Formulation Development

- Stability Studies: Stability testing, Container closure compatibility, Storage at all Major ICH conditions
- Manufacturing and Supply

With an investment in excess of USD 150 million, Acme proudly serves more than 25 customers including many of the world's leading companies. With an unwavering focus on Service and Quality, Acme is strategically positioned to serve as a preferred business partner.
